FOR IMMEDIATE RELEASE:

BANK OF HAWAII PROUDLY PRESENTS...

**Emme's *Classic Island Moments*
END OF SEASON ONE**

'The Comeback Kids'

**Encore Presentation: August 29th at a special time – 7PM
on KFVE - Your Home!**

Honolulu, Hawaii (August 25, 2010) --- EMME Inc. has completed a successful 12-24 week series of *EMME'S CLASSIC ISLAND MOMENTS*, which ran on KFVE on March 21st and ends August 29th 2010. These encore presentations of the best of *Emme's Island Moments*, filled with talent and entertainment up-dates, provided our Hawaii television viewers with a delightful family-friendly alternative on Sunday evenings.

This week Sunday marks the final episode of “*Emme's Classic Island Moments*”. Join Emme Tomimbang on a special program profiling some of Hawaii's inspirational and courageous sprits. She pays tribute to three people who have fought against incredible odds and faced their health challenges head on.

Special guests include:

- Cancer advocate, the late **Chris Pablo**

A community leader battling with leukemia, Pablo shares his philosophy of living one's best life moments. He lived 12 years after being diagnosed with leukemia and helped others also stricken with cancer. Chris passed away last year, but his life and legacy will be remembered by many whose lives were touched by this brave and courageous spirit.

- Female surfer **Bethany Hamilton**

In her first in-depth Hawaii interview, Emme talks with Bethany on Kauai as she reveals an inspirational story of the triumphs and struggles of being a teen surfer, losing her arm to a shark attack. A full length feature film titled “Soul Surfer” will be released later next year based on the life of Hamilton and her story of hope and determination.

- American Golf legend **Arnold Palmer**

The legend of golf made other headlines in 1998. Palmer became an advocate spokesman for prostate cancer screenings after he was diagnosed with prostate cancer. He talks about his

bout with the disease, his recovery and how he got “back on course.” Palmer is living proof that early prostate cancer screening can indeed give you quality of life.

These inspiring stories on “The Comeback Kids” illustrate the triumph of the human spirit and how they each bravely faced adversity and their life challenges.

EMME’S CLASSIC ISLAND MOMENTS will go on hiatus after August 29th. In the meantime, EMME Inc. will be announcing a couple of new and very exciting projects on KGMB to complete our 2010 programming. For more information log onto our website at www.emmeinc.com.
